

# Final Presentation

## Back from the Future We Want

### Global Challenges & Sustainable Futures

CEMUS | Centre for Environment and Development Studies | Autumn 2016

---

*Welcome to the final presentations for the glimpses of life in Managua 2056,  
and to hear the stories of how we got there. We are now ...*  
**Back from the Future We Want.**

What does the “future you want” in your topic in Managua look like?  
How do we get there? What are your action points and proposal?

We ask you to present your Group Project in a **Pecha Kucha 20x20 Presentation** format!

Pecha Kucha 20x20 is a presentation format where you show 20 images, each for 20 seconds (total presentation time: 6 minutes 40 seconds). You set your powerpoint slides so that the images advance automatically so you talk along to the images and only have 20 seconds per image before the next one. You need to be short and concise. Because of the tight format, and in order for this to work, practice in your group at least several times before the presentation. Be creative on how to visualize and organize!

In your presentation, include:

- The vision of your topic for 2056 (from Part 2)
- Backcasting analysis (Part 3)
  - Necessary changes, drivers, and barriers
  - Action Points
  - Proposal for today
- Choose in your group whether you would like to base your entire presentation on your Creative Presentation (Step 4 in Part 3), or have it as a small part of your presentation

Use plenty of time to *practice* in your group beforehand. All group members should participate in the presentation.

#### Time & Date:

December 6th, 17:15-20:00 @ room 12:004, Blåsenhus

Bring it on a USB stick and copy the file to the Course Coordinator's computer before the session starts. Alternatively, send the file to [gcsf@csduppsala.uu.se](mailto:gcsf@csduppsala.uu.se) before class.
