

Make Up Task – Agora

Global Challenges & Sustainable Futures

CEMUS | Centre for Environment and Development Studies | Autumn 2015

If you haven't participated in online forums in the Agora for 6 different lectures, you will have to complete the following make-up task to meet all the requirements to pass the course.

For those that weren't able to participate in time during six weeks in the Agora, the following extra task must be completed by **December 20th** and submitted through **Studentportalen** in the specific Hand-In area.

The task has two points that you need to follow:

1. Include all the contributions in the Agora that you did on time.

If you have already participated on time in 1 to 5 online forums, copy the text or take a screenshot of your contributions in this Make Up Task.

For every week, be sure that we can see:

- the contribution (e.g. question/comment) that included the reference to the Course Reader
- the date you participated
- and the lecture title of that week.

2. In total, you have to contribute in discussions for six different weeks. Submit the following for the number of weeks that you have left to reach the minimum participation of six weeks:

- Summarise the main points of your classmates' discussions for the weeks of your choice (up to six).
- Add your own view on a few of the issues that your classmates have been discussing and be sure to relate it with the literature in the course reader for the week.

Discuss in approximately **500 words**, including at least **3 references** from the course reader for each week that you missed.

(e.g. if you participated in two Agora forums, you will need to attach the two contributions (point 1), and pick four other weeks and write 4 x 500 word discussions (point 2))
