

## Guiding Questions for November 21st

### *Carnage: Swallowing the Past*

Before November 21st, watch the film “Carnage: Swallowing the Past” (2017, 70 min) and read the assigned literature in the Course Reader for the session.

You can watch the film at the CEMUS screening of the film on Wednesday, November 8th at 20:00 (8pm) in the CEMUS library. Sachiko and Thomas will arrange another screening for those who cannot attend that evening. You can also just watch the film on your own, if you have access to it.

Please consider the following guiding questions, when watching the film:

1. **What events in the film lead to the ‘sustainable’ vision of the UK being vegan in 2067?**
2. **Who are important actors in the 50 year change in the UK towards veganism?**
3. **What is ‘sustainable’ about the vision of this film? What could be problematic?**
4. **For whom is the vision that this film presents desirable? How would you criticise the film using the ‘five lenses to sustain-/desir-able futures’ (see instructions Back to the FutureS we want - Part 2)?**

You don’t need to hand in your answers to the questions on Studentportalen. We will discuss these questions in Literature Seminar 2 on November 21st.
