

# THE GLOBAL ECONOMY

## ENVIRONMENT, DEVELOPMENT & GLOBALISATION

Dear Student,

Warmly welcome to 'The Global Economy – Environment, Development and Globalisation'!

During the course we will focus on a number of socio-economic issues ranging from international trade, economic growth and climate change, to development, inequalities and finance. Throughout the semester, different theories and historical examples are analysed and discussed in sessions with knowledgeable and inspiring guest lecturers, in order to offer a multidisciplinary understanding of the global economy's role in today's world. Embarking on this journey of discovery, international and Swedish students will be asked to reflect critically on the past and current state of the global economy in order to imagine alternative economic futures.

Some of the complex questions we will be dealing with are: What is the real wealth of nations? How is the global economic system performing under increasing ecological and social pressures? Which institutions and actors have the best opportunities to work towards building desirable and sustainable economies?

### ***Registration and Roll Call***

- International and Swedish students who applied through [antagning.se](http://antagning.se) need to register for the course online on [studentportalen.uu.se](http://studentportalen.uu.se) by **Monday, August 20<sup>th</sup>**, the latest, otherwise you will lose your spot in the course.
- International and exchange students who have not applied through [antagning.se](http://antagning.se) will be registered at the mandatory course introduction. It is **essential** that you show up in person in order to keep your spot.
- If you are on the reserve list and want to take the course you need to show up to the course introduction as well, so we can sign you up in case there are any free spots.

The registration will take place at the first session of the course, on **Monday, September 3**, at 17.15 in the 'Humanistiska teatern' in the building 'Engelska parken' (entrance 3C opposite Carolina Redviva, [see map](#)). **You must attend the roll call** in person and remain active throughout the course, otherwise you will permanently lose your place. If you absolutely cannot make it, you can send another person in your place to register for you (but you must inform us this prior to the evening).

We usually have more applicants than we can accept for this course, so if you do not plan to register for the course please let us know as soon as possible at [gec@cemus.uu.se](mailto:gec@cemus.uu.se) so that we can accept someone from the waiting list.

### ***CEMUS Introductory Lecture and Open Events***

At CEMUS we start every semester with open, inspirational and introductory lectures for all courses and to a public audience. These lectures introduce sustainable development and Education for Sustainable Development (ESD), both in thematic and theoretical ways and from more practical and personal points of view. Since these lectures are open for all CEMUS courses, they are a good opportunity to meet fellow students. This year's introductory lecture will immediately follow our course registration.

**Monday, September 3, 18.15-20.00:**

**CEMUS joint semester start-up lecture autumn 2018 lecture with Anders Wijkman,**

Author, Co-president Club of Rome and Chair Governing Board of Climate-KIC.  
Venue: Humanistiska teatern, Engelska parken

**Thursday, September 13 15:15-17**  
**CEMUS Project Café: Semester Start-up**

Students, CEMUS staff, faculty and the interested public are warmly welcome to the CEMUS Project Café for an inspiring and creative afternoon. Bring your own ideas and projects or just come and listen (and get involved) in to what's going on this autumn semester at CEMUS and beyond!

Venue: CEMUS Library, Geocentrum.

Please keep visiting the [CEMUS website](#) for further information and more open events.

### ***Course Structure***

The course is worth 15 credits (ECTS) and is thus given at 50% of a full-time study workload, which equals around 20 hours per week. Class is two nights per week, Monday and Wednesday evenings for the entire autumn semester. Lectures will take place in Hörsal 1 or 2 at Ekonomikum, whilst seminars will take place at Kollaboratoriet (see map and check the attached course schedule). However, the schedule and locations are subject to change so please check the course website frequently. Our offices are located at CEMUS headquarters at Geocentrum. However, as we only work park time it is best to email us rather than drop-in.

Expect a considerable workload for this course. The backbone of the course schedule is the lecture series, with guest lecturers from universities, government agencies and organisations from civil society. Lectures are complemented by seminars, workshops, a debate, and other activities in which we will discuss and analyse course literature and subjects brought up in lectures. More information on course content, assignments and assessment, will be available in the 'The Global Economy Course Information Booklet' for 2018, which you will receive shortly before the beginning of the course.

### ***Course Homepage***

Please visit the course's page on the [CEMUS website](#) regularly to see the latest information and updates. Schedules, task instructions, lists of course literature, lecture slides, etc. will be uploaded during the course. If you have any questions regarding the course, please contact us at [gec@cemus.uu.se](mailto:gec@cemus.uu.se). Or you can contact us individually on the emails below.

[guy.finkill@cemus.uu.se](mailto:guy.finkill@cemus.uu.se)

[aaron.tuckey@cemus.uu.se](mailto:aaron.tuckey@cemus.uu.se)

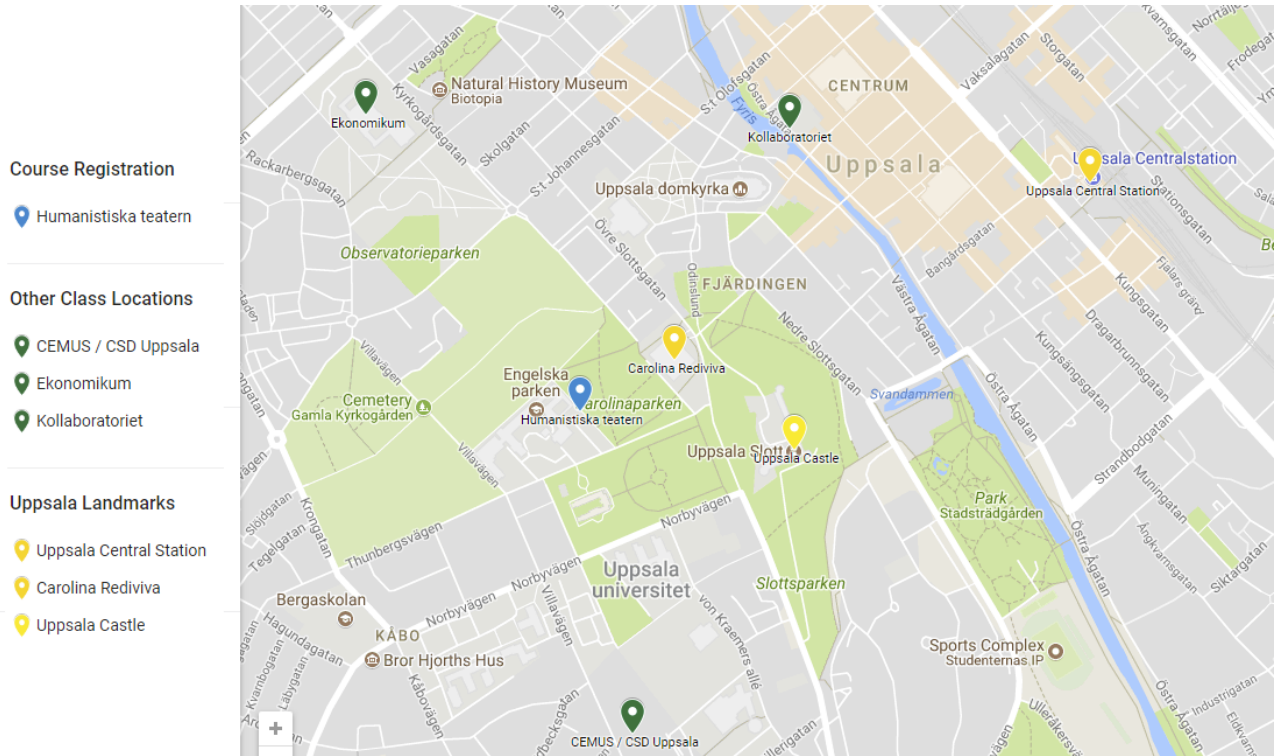

We are looking forward to meeting all of you!

Best,

*Guy Finkill and Aaron Tuckey*  
Course Coordinators
