

# **Collaborative Agreement & Getting Started**

**Group Name:**

**Student-led session topic:**

**Members:**

**1. How will you communicate with each other? Decide what works best for your group, and exchange your contacts (e.g. email, phone facebook, whatsapp, etc).**

**2. Try to plan when you would meet and work together. We suggest that you spend:**

- 3 hrs looking for 2 cases and writing 2 case reports
- 1-2 hours planning the session structure (including looking into and deciding facilitation methods, resources and role preparation)
- 1 hour for the Group Reflection (including documentation and submitting).

**3. In your group, share your initial ideas of possible cases and examples for your session.**

4. ... if you still have time, share your reflections from the 2 articles about using case studies ('What makes a good case study?' and 'What not to do in teaching cases'). Further, share your experiences about good (and bad) discussions you have had in class. What is needed to host a good discussion?
